\*With a closing purchase if ordered by 9/30/14.

### Spa Closing Service \$225

- Drain Spa
- Blow out plumbing lines
- Add BioGuard® anti-freeze
- Install plugs if necessary

**Special Price!**

Please have a credit card ready to reserve your closing date. We can't guarantee first stop, last stop, etc. Closings must be paid in full at time of service unless we are notified otherwise. There will be a \$75.00 rescheduling fee if pool is not ready to be closed when we arrive. All customers who we did not close the previous year must sign a closing waiver. Chemicals added at closing does not guarantee a clear pool in the spring.

# 2014 Pool Closing Checklist!

## Customer Pre-Closing Checklist

- Shock the pool 5-7 days prior to lowering the water level.
- Clean dirt, leaves, and other debris from the pool.
- Get water computerized water tested to ensure proper balance for winter.
- Lower water level to just below return fittings (auto covers; do not lower water).
- Have plugs, fittings, water bags, and covers out of pool at time of closing.
- Supply sufficient power to the equipment area.
- Make sure water is pumped off auto covers.

### TO LOWER YOUR POOL WATER

(for sand filters & select DE filters):

- Shut off the pump
- Turn the vari-flo valve to waste position
- Open the main drain valve fully
- Turn on the power to the pump
- **DO NOT LEAVE POOL UNATTENDED & TAKE TIMER CLIPS OFF!**

\*If no waste valve, use a submersible pump or call us for further directions.

\*If excessive rain occurs, contact us for specific lowering water instructions.

\*If you want us to pump down water, it is an additional \$75. Call in advance.

### Special BioGuard® Offer!

**15% Off** STOW AWAY CLEANER®  
1 qrt bottles

Cleans & protects solar covers,  
toys, floats & patio furniture!

**Prevents  
Winter Mold  
& Mildew!**

### DESROCHERS BACKYARD POOLS & SPAS POOL CLOSING PRICING DOES NOT INCLUDE:

- Any needed repairs or problems with equipment found at the time of closing or repairs needed to replace cut plumbing lines to ensure that the lines are sealed or cut handrails & ladders due to chemical corrosion.
- Any vacuuming or skimming at time of closing.
- Any parts or plugs required at closing.
- Any filter cleaning with a chemical unless specified otherwise.

### BioGuard® Closing Tip

IS YOUR POOL WATER READY FOR CLOSING?

Make sure to get your pool water analysis before closing. Proper water balance is critical to liner care.
